REPORT OF THE BOARD OF SELECTMEN

The Board of Selectmen respectfully submits an annual report for 1987 to the citizens of Easton.

In April William D. Hardin was elected to the Board. The Board was re-organized with John J. Kent elected Chairman and James D. Mullen, Jr. elected Clerk.

The Board scheduled regular meetings for each Monday at 7 p.m. which were generally well attended by townspeople.

The Board members also attended many meetings and hearings of other town bodies, as well as regional and state conferences.

In November Town Administrator Daniel J. Morgado submitted his resignation and accepted a similar position in the Town of Grafton, Massachusetts. Morgado served the Town well and will be missed.

At this writing the Board, after reviewing applications of approximately (40) candidates for the position of Town Administrator, announced the appointment of Kevin Paicos.

Anne M. Carney, Assistant Assessor, was approved interim Town Administrator through this transition.

The Town continues to grow. With this growth is the need for facilities and personnel to provide the services.

Two additional polling locations were established for the Town's five precincts.

Fire Station No. 3 was accepted by the Town and is in full operation.

Plans have been completed for an addition to the present police station and the water service has been extended to the homes in the southwest area of the Town.

There is a need for additional space in the Town office and need for additional library facilities for the townspeople.

The voters also must be ready to finance major street, drainage rehabilitation and adequate streetlighting for our public ways.

The Board commends the endeavor of our employees and the volunteer citizens serving on our boards, commissions and committees and we encourage you to read their reports and their recommendations.

The Selectmen also appreciate the extra effort of the past Administrator, Representative William Vernon and Senator John Parker.

Respectfully submitted,

John J. Kent, Chairman
James D. Mullen, Jr., Clerk
William D. Hardin
Richard B. Lane
William E. Morgan
BOARD OF SELECTMEN

REPORT OF THE FINANCE COMMITTEE

The Finance Committee has been reviewing the town budget with the respective department heads since January. The expense side of the departmental budgets is well defined and is being closely scrutinized by the committee. Personnel costs, which is by far the largest item in the budget, cannot be finally ascertained given the fact that all labor contracts covering town employees are up for negotiation this year. The Finance Committee is unable to issue final recommendations on the budget until such time as these negotiations have been completed.

The latest income figures available to the committee show that the town will receive twenty-one million nine hundred and eight thousand eight hundred and ninety-four (\$21,980,894.00) dollars from all sources. After payment of fixed charges, (debt service, state and county charges, insurance, retirement, and other uncontrollables) there will be sixteen million two hundred and seventy-four thousand seven hundred and thirty-nine (\$16,274,739.00) dollars for appropriation to the operating budgets.

The municipal budget as proposed by the Town Administrator is five million eight hundred and eighty-three thousand four hundred and thirty-six (\$5,883,436.00) dollars. The school budget proposed by the school committee comes to eleven million four hundred fifty-seven thousand, eight hundred and seventy-eight (\$11,457,878.00) dollars. The estimated capital budget will be approximately three hundred thousand (\$300,000.00) dollars. The total of these three items is seventeen million six hundred forty-one thousand, three hundred fourteen (\$17,641,314.00) dollars.

As can be seen from the above figures, there is already a substantial deficit problem. In addition, there will be substantial additional expenditures for personnel costs when the negotiation of labor contracts has been completed. Even with an increase in state aid, there will continue to be a deficit short fall.

The Finance Committee will review all town budgets with this situation in mind, and will attempt to cut all expenses to the extent possible. There will be many factors entering into our re-evaluation of the budgets that may result in material changes between now and town meeting. The committee will present more detailed recommendations in a report to the town prior to town meeting.

Respectfully submitted,

Gerard A. Cyr, Chairman
Jeffrey Tufts, Vice Chairman

REPORT OF THE SUPERINTENDENT OF SCHOOLS

As Superintendent of Schools, I hereby submit my seventh report and the one hundredth and two in a series since the Town authorized a Superintendent of Schools. A report such as this is a partial summary and reflection of the accomplishments for the 1987 school year based on reports of the various administrators and departments.

School Enrollments

As we indicated in the 1986 report, the large preschool population has presented some serious overcrowding problems. Two (2) additional kindergarten classes were established and an additional second grade, fourth grade, fifth grade and sixth grade. It appears that we will be able to house these students for the 1988-89 school year, but there will be serious problems in '89-90. The Easton School Committee has requested the Continuing School Building and Site Committee to reconvene to discuss immediately building concerns and has also requested the School Building Assistance Bureau of the Department of Education for a school building needs conference. With the continual building in Easton, it appears that the decline of student population is over and it is time now to determine a course for the future.

Curriculum

The Curriculum Coordinating Council, under the leadership of Andrew Miller, Jr., Assistant Superintendent of Schools, reviewed revisions in curriculum areas of Art, Physical Education, Business and Mathematics.

Approval was granted for the implementation of two new handwriting programs, Harcourt Brace Jovanovich for Kindergarten through Grade 2 and Zance Blouser for Grades 3 to Grade 6.

The Reading Task Force, under the leadership of Sarah Gallahue, Principal of Moreau Hall, presented a proposal to assist its students who are having difficulties with the Holt Reading Program. The Focus Reading Program by Scott Foresman was adopted and is presently in place.

New elementary report cards are being implemented for the first time in many years. This is the result of the Report Card Committee under the leadership of Frank Sahl, Principal of North Easton Grammar.

Easton should be pleased with its results on the Basic Skills testing. We have a higher cutoff than the state average and have done excellently.

Special Needs

The highlight of the year was the opening of the "A" wing of Oliver Ames High School under the leadership of Pat Dahl, Brian McLaughlin and others too numerous to mention. The grand opening took place in September. Dr.

Simmons, Director of Special Services, immediately had programs and staff reading to provide services to students. The wing opened with approximately twenty-one students. We want to thank the community, tradespeople, and contractors for all their support in the completion of this wing. At the present time the special needs population of Easton is approaching 600 students.

Elementary

We mourned the passing of two of our teachers during this past year, Mrs. Colleen Greene and Miss Rosemary Hanlon.

The HAL program has taken on a new look under the direction of Barbara Crivellaro. At the same time a committee of teachers, administrators, parents and School Committee members, under the direction of Neil Mosman, Principal of Center School, is preparing a position paper on the future of the HAL program in the Easton Public School System.

We continue to praise Officer Dwayne Farrell for the Officer Friendly Program. Chief Walter Healey of the Easton Police Department, with the cooperation of Easton Public Schools, has also implemented Project DARE, a drug and self-image program. Patrolman Michael Fox has been assigned to teach this program on a full time basis. He has had a positive impact on the staff and students, which is an example of how town departments can work together effectively.

The newly appointed principal at the Parkview School, Dr. Judith Frederick, has instituted a school-wide Price Program which has been extremely successful.

All of the elementary schools have reading incentive programs, but one that is extremely effective is "Books and Beyond" at the Center School. Almost ninety-nine percent of the student body is involved in the incentive program.

Drug Education Parents have grown under the leadership of Sarah Gallahue and Suzanne Warren. These parents teach classes in the various elementary grades.

An exemplary part of the elementary program is the continuing Sheep Pasture involvement. This outstanding resource adds many enrichment experiences for our students.

We applaud the School Committee for its efforts to reduce class size by the hiring of additional staff.

Secondary

Each year the secondary programs become stronger, and the results are evident after reviewing standardized examinations, mid-years and finals. Continually the staff is seeking new methods to improve programs to meet the needs of the students.

The Foreign Language Exchange Program continues to allow students to develop greater proficiency in a language.

The junior and senior high schools have for the first time scheduled students through a new computer system and are presently trying to develop programs to facilitate ease of grade reporting, averages, attendance, etc. We congratulate the staff, professionals and non-professionals for their efforts in this changeover.

Oliver Ames High School had one of its largest number of National Merit Scholarship Letters of Commendation Winners in the school's history, as well as a Merit finalist. Students have won Globe Art Awards and essay contests.

Cyrus Comminos has worked out a school-business partnership program with Cumberland Farms.

The Athletic program still performs at an exceptional level, and the Music Department continues with their many successes.

The junior high school is participating in the SMARTS Collaborative programs, dance and visual arts.

Maintenance

Major renovations have taken place in the Middle School classrooms. The athletic locker rooms at the junior high are being refurbished, however, there is a need to replace some roofs and large capital projects in the very near future.

Parent Support Groups

Parent Advisory Councils contribute a great deal to the enrichment of student activities in the Easton Public School System. Their fundraising efforts directly affect individual students. Booster groups, along with Parent Advisory Councils, help to maintain our programs during this period of fiscal restraint. School improvement Councils, utilizing Chapter 188 monies, do much to supplement the educational programs. The involvement of parents and taxpayers in these activities has a positive and lasting effect on the educational programs.

Closing Comments

There are many achievements that are created daily in the classroom and in all phases of the educational program. It takes the efforts of an entire staff to make an educational program successful. All of the personnel in the Easton Public School system are qualified, energetic, and responsive, added by a School Committee that cares. We applaud their spirit and efforts, as well as the efforts of other town departments.

Respectfully submitted,

George P. Lane, Ed.D.
SUPERINTENDENT OF SCHOOLS

REPORT OF THE EASTON SCHOOL COMMITTEE

The Easton School Committee is pleased to present the following report for 1987.

At the reorganizational meeting in April following the town elections, new members took their positions on the School Committee, namely, Mrs. Christine Margulies and Mr. Paul Olean, replacing Mr. Richard Hall who resigned and Mr. Robert Nisenbaum who lost his bid for re-election.

Mr. Donald Anderson was elected Chairman at this reorganization. In addition to the people notes, Constance Pozzo and William Gloekler remained as elected members of the School Committee.

On July 17, 1987 Mrs. Constance Pozzo resigned her position as a School Committee member to enter the teaching profession on a full-time basis. Carla Goodwin was appointed by the Selectmen and the School Committee to fill the unexpired term of Mrs. Pozzo.

During this calendar year Easton Public School mourned the passing of two outstanding teachers, Rosemary Hanlon of Parkview School and Colleen Greene of Moreau Hall. Their families have our deepest sympathies.

We applaud the efforts of our staff and administration in maintaining an educational program that is a credit to the Town of Easton. The results of these efforts are evident in the successful scores in the Basic Skills tests, other standardized tests, awards and college placements.

The Committee has adopted goals for Easton Public Schools which were presented to the staff and administration in the Fall of 1987. The goals are as follows: Skills, Sense of Self, Sense of Community, and Motivation. The goals recognize and illuminate the problems that are confronting the school system and the town. As enrollments increase, building demands increase and the support of the taxpayers becomes most critical. The fiscal crisis and space shortages will be presented to you in the coming months.

Due to the increased enrollment, the School Committee has requested a building needs study by the School Building Assistance Bureau of the Massachusetts Department of Education and a reactivation of the Continuing School Building and School Site Committee. We have also pursued and continue to pursue the building of the new library or community center with library facilities on school property. This is an attempt to minimize costs and maximize efforts using existing volumes and resources.

The Committee was extremely active following the retirement of John Buckley, Principal of Parkview School, in interviewing and hiring a capable replacement. We were proud to appoint Dr. Judith Frederick to this position.

The Committee also accepted the notification of retirement of the Superintendent of Schools effective August 31, 1989.

One of the more exciting events of the year was the opening of the "A" Wing, a wing of Oliver Ames High School built totally by local contractors and interested citizens.

We wish staff members who retired this past year a long and happy retirement. They have given so much to the students and programs of the Easton Public School System. The retirees are as follows:

James Bougas
John Buckley
Elizabeth Evans
Joan Lloyd
Doris Levanitis

Evangeline Lovell
Juanite McGranahan
Joseph Shannon
James Tsika
Edith White

We have been fortunate to have the support of the community in our budget needs and look forward to a continuance of this effort.

Due to the cooperation of the various town departments, we have been able to perform our responsibilities and duties in a positive atmosphere.

We express our sincere appreciation to the legions of parents who assist students and staff in so many ways. Your valued assistance and support are a significant asset to our school program.

We have just highlighted some of the events of the year. We look forward to continued community support and participation in parent advisory councils, support groups and town meeting.

Respectfully submitted,

Donald E. Anderson, Chairman
William J. Gloekler
Carla Goodwin
Christine Margulies

REPORT OF THE ACCOUNTANT

To the Board of Selectmen:

We have completed the computerization of the entire accounting system this past year. We continue to make changes to the system to improve our monthly reporting and closings.

The accounting system has been fully converted to UMAS Accounting as recommended by the Bureau of Accounts.

We continue to monitor all budgets of the town and assist departments upon request.

This report also includes the balance sheet for the Town of Easton as of June 30, 1987.

REPORT OF THE DIRECTOR PUBLIC WORKS AND TOWN ENGINEER

To the Honorable Board of Selectmen:

The Town continues to experience rapid growth. The growth, in turn, taxes the ability of the Department to adequately respond. Although, in most cases, we are aware of the Town's needs, the resources are not available to meet those needs.

The sanitary landfill expansion plans were submitted to the Massachusetts Department of Environmental Quality Engineering in 1986. However, because of the assessment required to resolve a potential groundwater contamination problem on Howard Street, the plans have not been formally approved by DEQE. The Department began an investigation into the feasibility of establishing a composting facility at the landfill where leaf and yard wastes would be composted, thus extending the life of the landfill.

The Town again joined with the City of Brockton and the Town of Avon in conducting a Hazardous Materials Collection Day. The Department is anxious to increase the frequency of such an event from one per year to two per year.

The Main Street Reconstruction Project began. A committee was appointed to assist the Director in reviewing proposals. A consultant was engaged to prepare the construction drawings and the specifications.

The expansion of the water distribution system to Dean Street and portions of Howard Street and Bay Road provided the Town with an opportunity to reconstruct the pavement at the same time. The existing pavements were milled and a new binder was placed. The wearing course will be placed in 1988.

The Department continued its program of placing asphalt slurry seal on selected streets as a method of extending the life of the pavements and began a program of crack sealing some of the more recently paved streets as a means of protecting the Town's investment.

The Department, with the approval of the Town Meeting of 1987, began a decentralization program with the relocation of the Water Division to the D.P.W. Annex on Bay Road (formerly the Furnace Village School). The relocation was necessary because of the lack of space at the D.P.W. Building on Center Street.

The Department is making more use of computers in its daily correspondence, water billings, payrolls, roadway cost estimates and budget preparations.

The Department mourned the losses of Gordon Southworth, Laborer in the Tree and Moth Division, Clifford Grant, former Light Equipment Operator in the Landfill Division and Michael Laughlin, former Director of Public Works.

I personally wish to extend my appreciation to Daniel J. Morgado, former Town Administrator, for his assistance and guidance during the almost four years we worked together. I am also most appreciative to the dedication and loyalty of the three division superintendents and of the personnel of the Department.

In order for a community to function effectively, each of its agencies must be sensitive and responsible to the needs of the other. While it is not possible for this to occur at all times, it is apparent that this is the general approach taken. The Town benefits from this rationale.

Very truly yours,

Howard Shaevitz, P.E., Director
DEPARTMENT OF PUBLIC WORKS

REPORT OF THE HIGHWAY SUPERINTENDENT

To the Honorable Board of Selectmen:

I respectfully submit the following report for the year 1987.

The Highway Division had another busy year trying to keep up with road and drainage repairs.

The Landfill Division was very busy with all the new homes in town. Also, the landfill will be filled this year.

The Maintenance Division was very busy keeping up the town vehicles.

As in all Division of the D.P.W. we need more personnel to keep up with the demands of the residents.

I would like to thank all Department Heads, Division Heads and our office personnel for their cooperation throughout the year.

Respectfully submitted,

Edward C. Jacobson
HIGHWAY SUPERINTENDENT

REPORT OF THE TREE WARDEN AND SUPERINTENDENT OF INSECT PEST CONTROL AND BUILDING AND GROUNDS SUPERINTENDENT

To the Honorable Board of Selectmen:

I respectfully submit my report for 1987.

Ninety-five dead, dying or dangerous trees were removed during the year. Pruning of dead or obstructing limbs or branches was done in various sections of town, along with cutting of brush.

Five hundred 3 year old flowering dogwood seedlings were distributed to all 4th and 5th grade students in the Easton school system. Seedlings and planting booklets were purchased through the Mass Tree Wardens and Foresters Association, with donations received from Fralo Corp., Welch Development Corp., Easton Garden Club and Robert T. Leonard. I wish to thank these citizens and companies and the labor of the Garden Club with assisting in bagging trees and planting material.

Our tree planting program did not fare as well with the heavy spring rains. Our nursery stock was flooded and we were unable to pull them out; and other projects and priorities from other Departments absorbed time during the spring and/or fall planting seasons.

Spraying for canker worms, aphids or other damaging insects was done on an as needed basis. Poison Ivy eradication on private property at the request of property owners was done, along with roadsides. Herbicides were applied to weeds and grass along gutters and sidewalks.

The Building and Grounds Division was kept busy with maintenance of all buildings and the removal of excess equipment and junk from the two buildings that were sold this past year, also, the moving and renovations for Divisions within the D.P.W. Major changes were made on the existing building on Center Street and the move of the Water Division from Center Street to the old Furnace School on Bay Road was completed. This was an all out effort by all D.P.W. Divisions. The moving process and renovations are yet to be completed. The Building and Grounds Division has yet to make a new home prior to moving out of the C.D. building on Sullivan Avenue.

A partition was installed into the Tufts hearing room and the move of the Assessors office was made from the crowded second floor office to this room. Also, the moving of equipment for the division of the Town Clerk; Collector—Treasurer's personnel and office were done.

Cemeteries and other areas under our control were cleaned and mowed all season as needed. Sunken graves were filled, fertilized and seeded. Grave stones were repaired and/or straightened.

The pool area was cleaned and repairs and painting were done. Small areas of the new fencing were vandalized last winter and were repaired. This past fall vandals removed approximately 90 feet of fencing from their posts and it will have to be replaced. State standards for pool water ph residual chlorine and coliform count were met during the season. The well will have to be purged again this year to have sufficient water to fill and maintain a constant water level in the pool.

Asbestos will be removed early in 1988 in the Town office. Plumbing and heating projects will get underway soon after.

The problems of the new Fire Station on Bay Road continues.

Manpower and equipment was utilized in many areas not related to trees, throughout the year, which is normal; but the demand has put quite a strain on us. Trimming and removing of dead or dying wood continues to be done and had to be done to protect the walking or traveling public.

Routine maintenance and custodial work of Building and Grounds are done, but more work needs to be done and it's been difficult to schedule improvements.

The population and needs or wants of the Town also increases for these two Division of the Public Works, as well as other Department in town. I am requesting two additional persons in each of the two Divisions under my supervision.

We were saddened by the death of Gordon Southworth, a very loyal and contentous worker of the Tree Division.

I wish to thank the other Division Heads, their personnel for their assistance, as well as the D.P.W. office staff during the year.

Respectfully submitted,

Daniel B. Amorim

REPORT OF THE EASTON WATER DIVISION

To the Honorable Board of Selectmen:

I respectfully submit the following report and pumping record for the year 1987.

Month	Gallons Pumped	Month	Gallons Pumped
January	40,568,000	July	64,972,000
February	37,328,000	August	65,129,000
March	41,699,000	September	46,181,000
April	40,930,000	October	46,935,000
May	51,302,000	November	42,540,000
June	68,640,000	December	41,634,000

Total gallons pumped in 1987 — 587,858,000

The greatest amount pumped in one day was 3,778,000 gallons on 6/20/87.

The Water Division responded to 2,594 service and emergency calls.

Connected 133 new services for a total of 5,397 active services.

Renewed 2 water services.

Dug up and repaired 17 service leaks

Thawed out 11 services.

Dug up and replaced 28 old fire hydrants with new traffic breakaway models.

5 hydrants were hit by automobiles. (Vehicle owners or insurance companies were billed for repairs)

288 meters were replaced.

Repaired 1 — 4" broken water main

1 — 6" broken water main

7 — 8" broken water mains

In 1987 new subdivisions added to our system:

1,745 feet of 4" water mains

925 feet of 6" water mains

23,745 feet of 8" water mains

2,000 feet of 10" water mains

62 new fire hydrants.

We now have a total of 127.8 miles of water mains and 1,049 hydrants in our system.

The Water Division supervised the installation of 16,979.6 feet of 8" ductile iron water main and 32 hydrants by FED. CORP. of Dedham on Howard Street, Dean Street, Bay Road, Fieldcrest Circle and Cranberry Lane.

The Easton Water Division celebrated its 100th year of service to the community in 1987 with an open house in May at pumping station No. 2, an exhibit at the Easton Historical Society, a school poster contest and an award of honorary membership into the Cast Iron Pipe Century Club.

Pumping Station No. 1 on Gary Lane was completely rebuilt and updated with a new pump and equipment.

Test well reconnaissance was conducted by Amory Engineers of Duxbury locating two favorable sites at Wheaton Farm and Borderland State Park which hopefully can be developed into two new municipal wells for the community.

The water works industry will be facing many new and costly State and Federal Regulations in 1988 which include the D.E.Q.E. cross-connection control program mandating backflow prevention devices on all fire sprinkler systems, as well as many other commercial and industrial applications which must be tested every three months.

The D.E.Q.E. Water Management Act regulates and permits the amount of water communities and private sources can withdraw daily.

The revisions to the E.P.A. Safe Drinking Water Act requires for much more expanded testing with mandated chlorination and filtration for all supplies.

The offices of the Water Division were relocated to 417 Bay Road (former Furnace Village School). It has proven to be an excellent re-use of that building.

I am very proud to have such a qualified and skilled group of employees and wish to acknowledge them for their hard work and dedication throughout the year: Dorothy Stone, Shirley Tufts, John Marsh, Richard Buckley, Raymond Keyes, John Fresh, Jr., Scott Habelt and Michael Berry.

Respectfully submitted,

Wayne P. Southworth, Superintendent
EASTON WATER DIVISION

REPORT OF THE CANOE RIVER AQUIFER ADVISORY COMMITTEE

To the Honorable Board of Selectmen:

The towns of Easton, Mansfield and Norton formed the Canoe River Aquifer Advisory Committee in February of 1987. The town of Foxborough joined in May of 1987.

The Committee is composed of three representatives of each community and meets on the first Thursday of each month.

The Committee has accomplished much during its short existence.

We have applied for and received a \$40,000.00 State Grant from the Executive Office of Communities and Development and have hired the consulting firm of I.E.P. to map and make recommendations for the protection of the Aquifer.

The Committee is also participating in the Division of Fisheries, Wildlife and Environmental Law Enforcement's "Adopt-A-Stream" Program which provides assistance to improve and protect the water quality along rivers and streams.

On October 22, 1987 the State Legislature approved the Legislative Act establishing the Canoe River Aquifer Advisory Committee filed by Representative William Vernon which has been regarded as a model for the entire State and reads as follows:

SECTION 1. There is hereby established the Canoe River Aquifer Advisory Committee, hereinafter referred to as the committee, whose member towns shall include the towns of Easton, Mansfield, Norton and Foxborough.

The committee shall be composed of three representatives from each member town. Said representatives shall be appointed by July first of each year by the board of selectmen of each member town.

In making such appointments, the board of selectmen shall consider for appointment members of the board of selectmen, planning board, conservation commission, board of health, and board of water commissioners or other such body, and the superintendent and members of the town water department. Private citizens with a demonstrated interest in protection of the Canoe River Aquifer shall also be eligible for appointment.

Initial terms of office for representatives from each town shall be for one, two, and three years. Thereafter, terms of office shall be for three years. Members of the committee shall be eligible for reappointment.

The committee shall organize formally within sixty days of its initial appointment, and elect from its members a chairman, vice-chairman, and secretary for terms of one year each. The committee shall prepare an annual report in writing of its activities in the previous fiscal year, such report to be provided to the board of selectmen of each member town by July thirtieth of each year.

SECTION 2. The Canoe River Aquifer Watershed is defined as the watershed area outlined as the Canoe River Watershed on the aquifer protection study map, Town of Easton, MA, dated 1986, Plate No. 2, completed by I.E.P., Inc., said watershed being within the boundaries of the towns of Easton, Mansfield, Norton and Foxborough.

SECTION 3. The committee shall inform and educate the public about water conservation and the condition of the Canoe River Aquifer.

The committee shall advise the board of selectmen, planning boards, and other boards, committees and agencies of member towns relative to developments, conservation and zoning within the Canoe River Aquifer.

SECTION 4. Any plan submitted for the development of any land within the Canoe River Aquifer shall be submitted to the committee at the time of submission to the planning board, conservation commissions, boards of health, or any other local agencies having similar jurisdiction in the towns of Easton, Mansfield, Norton and Foxborough. The committee shall study such plans and shall report its findings and recommendations, if any, to the respective local board or agency having such jurisdiction prior to the decision of such board or agency. Failure to timely provide its findings and recommendations, if any, shall not be deemed to stay action of the respective local board or agency, if said board of agency is required by law to act within a certain time period.

Respectfully submitted,

Wayne P. Southworth, Chairman

CANOE RIVER AQUIFER ADVISORY COMMITTEE

REPORT OF THE WATER RESOURCES ADVISORY COMMISSION

To the Honorable Board of Selectmen:

The Water Resources Advisory Commission respectfully submits this report for 1987.

The aquifer study and groundwater protection plan, prepared by IEP, Inc., was not completed in time to review proposed changes in zoning for the 1987 Annual Town Meeting warrant as planned. The study is now complete and the new information about the geology and hydrology of our groundwater aquifers makes it clear that adjustments in Easton's zoning need to be made to protect our water supplies. Members of the Water Resources Advisory Committee have met with the Water Department, the consultant, and the Planning Board to review the groundwater study and plan and to help prepare zoning articles for the 1988 Annual Town Meeting.

Water Department Superintendent Wayne P. Southworth kept the Commission informed of the department's work throughout the year and we commend him and his department for another year of outstanding accomplishments. Mr. Southworth's leadership in creating and chairing the Canoe River Aquifer Advisory Committee is especially exemplary. That committee is a model of inter-town cooperation in protecting an aquifer that is shared by Easton, Norton, Mansfield and Foxborough. The committee was created by the Massachusetts legislature at the towns' request to educate the public about the aquifer and to review development plans within the watershed of the aquifer and advise officials of the four towns about appropriate actions to protect the aquifer. This approach to protecting aquifers that cross town boundaries is now being copied elsewhere in the state.

In September the Commission was saddened by the death of member Clifford (Kippy) Grant, a life-long advocate for environmental protection in Easton and a good friend.

We welcomed new members Philip Clark and Mary P. Connolly to the Commission in November and December.

The Commission urges all Easton residents to support zoning changes that are needed to protect our water supplies, to use and dispose of hazardous materials properly, and to conserve water.

Respectfully submitted,

Lyn White, Chairperson
Philip Clark
Mary P. Connolly

WATER RESOURCES ADVISORY COMMISSION

REPORT OF THE POLICE DEPARTMENT

To the Honorable Board of Selectmen:

I respectfully submit the following report for the year 1987.

I wish to thank the citizens of Easton who supported us at the Annual Town Meeting and subsequently at the polls, giving us the go-ahead to construct an addition to the present station and to install an all new radio system that will replace our outdated, vintage system. A committee of seven citizens has been formed and they are currently working with the architect, hoping to complete the project by the summer of 1989.

We brought seven new officers on board, two of which replace retirees and five new officers who were approved in 1986. With the new officers we were able to increase our radar patrols which have resulted in lower personal injury and fatal accidents.

I would like to thank the members of the Department for their cooperation and dedication throughout the year, and also a word of appreciation to other town personnel who assisted us during the year.

Respectfully submitted,

Walter Healey, Chief

REPORT OF THE FIRE DEPARTMENT

To the Honorable Board of Selectmen:

I hereby submit the report of the Easton Fire Department for the year 1987.

The Department responded to 3,734 runs, 1054 of which were Ambulance Runs; the total number of runs increases every year due to the growth in population, business and traffic in the town.

Eight (8) new Firefighter—EMT's were added to the department, four (4) have graduated from the Mass. Fire Academy and the remaining four (4) are scheduled to attend in January 1988.

In February the new Station No. 3 opened with two (2) additional firefighters assigned per Shift for twenty-four (24) hour coverage. The manning of this station has cut emergency response time in that area.

A new Class A 1250 GPM Engine was put in service in October at Station No. 2. This vehicle replaced a 1958 engine. The department should replace an engine every year for the next several years.

Fire Prevention Week was observed at all of the Elementary Schools, Day Care Centers at Station No. 1. The firefighters, teachers and children have all worked very well together to improve fire safety for the entire year.

I am extremely pleased with the professionalism and cooperation by the firefighters during emergencies and the maintaining of the apparatus and stations.

The Fire Department appreciates the cooperation from all of the Town Officials, Boards and the citizens for the support given to improve Fire Safety.

REPORT OF THE EASTON BOARD OF HEALTH

To the Citizens of Easton:

In compliance with the General Laws of the Commonwealth of Massachusetts, it is our pleasure to herewith submit to you a summary of the work done under the jurisdiction of the Board of Health for the year 1987.

At the annual election, Donald F. Craig was re-elected. At the organizational meeting, Donald F. Craig was re-elected Chairman, his twenty-fourth year as chairman. Appointments made by the Board include: Provisional Plumbing Inspector Daniel A. McNeill, Associate Plumbing Inspector Robert A. Govey, Health Officer/Agent Mary P. Connolly, C.H.O., Burial Agent/Assistant Agent JoAnne Pitz, Milk Inspector John D. Melin and Animal Inspector John D. Melin. Nursing services are provided by agreement with the Community Health Agency, Inc., of Attleboro. Laboratory services are provided as needed by Oliveira's Environmental Laboratories. Mary P. Connolly also serves as Right-To-Know Coordinator, Passenger Safety Coordinator and Hazardous Waste Coordinator.

Easton enjoyed a relatively healthy year with the following diseases reported, with all federal and state reports made and necessary follow-ups completed: Chicken Pox 66, Scarletina 1, Salmonella 25, Dog Bites 44, Meningitis 5, Hepatitis 2, Campylobacter 8, E. Coli Enamocysts 1, Comydial 1, Giardia 1. In addition, there were 230 births, with 8 being classified as high risk infants. There were 23 death certificates filed and 7 burial permit endorsements received. Reports of 38 Blood Lead Levels were received and followed up.

The Animal Inspector inspected all dairy cattle, dairy cows, horses, ponies, sheep, swine and beef cattle during 1987 and quarantined all animals, upon receipts of notice, who had bitten people.

During 1987 two former Board members died. Dr. Barbara H. Gray served from 1956 through 1959. George M. Luke served from 1971 through 1985. Their service to the citizens of Easton will long be remembered. Dr. Gray also served on the School Committee and George Luke also served on the Sewer Study Committee.

The townspeople defeated the fluoridation of the town water supply at the April 1987 election.

The Groundwater Assessment in the Prospect Street/Howard Street area is on-going and the final approval for the vertical expansion of the Landfill is on hold, pending final results of the Assessment.

The disposal of solid waste continues to be a major problem, not only in Easton but across the Commonwealth. Viable solutions are being studied.

Many inspections were conducted by the Board and staff for the many responsibilities mandated by the Laws and Codes which are under their jurisdiction. Members of the Board are making many inspections due to the lack of personnel.

Annual clinics, which were sponsored by the Board, were the Influenza Immunization Clinic and the Rabies Clinic.

The Board appreciates the cooperation of the various town boards and continues to work closely with the Department of Public Health and the Department of Environmental Engineering and other agencies of the Commonwealth.

Several hazardous material spills were discovered by the Board after tips from residents and the Board appreciates the attention that citizens are showing in reporting these incidents to the Board.

Respectfully submitted,

Donald F. Craig, Chairman
Robert J. Kane
Charles Barboza
BOARD OF HEALTH

REPORT OF THE EASTON PLANNING & ZONING BOARD

To the Citizens of Easton:

During 1987 the Planning and Zoning Board continued to pursue its responsibility of protecting the quality of life in Easton, especially in protecting the safety, convenience and welfare of the public through control of development and land use.

In the area of subdivision regulation, we have been fortunate to continue the services of our part-time consulting engineer, Philip O'Connell, P.E. Through his work we have been able to ensure that development work will proceed according to the detailed plans approved by the Board as one of its most time-consuming activities.

In the approval of site plans for business and industrial development, we were able to obtain Town Meeting approval of the issuance of Guidelines which will help developers understand clearly what standards are expected in the creation of site plans.

A third important activity has been enthusiastic support of Wayne Southworth of the Water Division in his efforts to establish a more realistic protection of the aquifers on which our Town water supply depends. This includes participating in the multi-town agency, Canoe River Aquifer Advisory Committee, being developed to further the protection of the Canoe River aquifer, and the planning of an overlay zoning district to control possible polluting uses of land lying above the aquifers.

We are pleased that when our valued member Gene Farrell resigned because of the pressure of his work, we were able to replace him with a highly qualified hydrological engineer, Donna D'Amore. We also appreciate the efforts of Paul Dubois who served on the Board in 1987.

During 1987 more than ninety site and subdivision inspections were made by Board members, a design review of twenty-three site plans was completed, and several site plans were reviewed which are still being processed. Several meetings were held to discuss the feasibility of developing various parcels of land, meetings of the Massachusetts Federation of Planning and Appeals Boards were attended by the Board members, and members attended several workshops regarding subdivision control, zoning and planning.

Six preliminary subdivision plans were submitted for review and two were approved. Fifteen definitive subdivision plans were submitted for review and six were approved. Twenty-three site plans were reviewed and approved, and thirty plans not requiring approval under the subdivision control law were endorsed.

The continued support and cooperation from all concerned citizens who have worked with us in the pursuit of good community planning is greatly appreciated.

Respectfully submitted,

Frederick Clark, Chairman

REPORT OF THE SOLID WASTE STUDY COMMITTEE

To the Board of Selectmen:

The Solid Waste Study Committee is addressing the serious problem facing not only Easton but the entire Commonwealth of how solid waste is going to be disposed of in the future. Information is being reviewed as it becomes available.

The Bristol County Selectmen's Association has also formed a sub-committee to study the problem. Selectmen William Hardin is Easton's Representative and he is sharing all information that becomes available to him.

An educational program is planned to teach citizens ways to reduce waste and to encourage both recycling and composting.

Easton is looking into the possibility of having a composting facility at the Landfill.

Citizens are encouraged to give input to the Committee and to practice waste reduction.

REPORT OF THE EASTON HOUSING AUTHORITY

To the Residents of Easton:

The Authority underwent administrative changes during 1987. Executive Director C. Michael Toner, who had been with the Authority for eight years, resigned to take the position of Executive Director of the Barnstable Housing Authority. Assuming the position of Executive Director in June of 1987 was Mrs. Krisanne Sheedy. The Authority also received a resignation from Mrs. Margaret Horne who had been with us in the capacity of Administrative Assistant for approximately eight years. Mrs. Susan Hill assumed this position in July of 1987.

The Authority received and issued 25 Section 8 Housing Vouchers in June of this year. Leasing under the voucher program is progressing in a relatively timely fashion. Recipients of both Section 8 Certificates and Vouchers are finding it increasingly difficult to find suitable, affordable units owned by landlords who are willing to participate in either one of these rental assistance programs.

In an effort to provide assistance to the program participants who had and were continuing to have difficulty in renting, the Easton Housing Authority hosted, in conjunction with the Fair Housing Committee, a "Fair Housing Forum" at Parker Terrace on October 21, 1987. Special emphasis was given to outlining the guidelines of the Section 8 Certificate and Voucher programs in hopes of enlisting the cooperation of the landlords in attendance. Presentations were made by Mr. Bruce Jones, Equal Opportunity Specialist from HUD, and Mr. Franklin Young, Compliance Review Officer, Massachusetts Commission Against Discrimination.

The 184 elderly housing units and 10 family housing units owned by the Authority experienced a normal degree of turnovers through the course of the year. All units which were vacated were immediately tenanted by those applicants who had been on our waiting lists.

The Authority is anticipating the completion of three modernization projects in the upcoming year. Additional monies totaling \$134,054.00 were awarded to the Authority in December of 1987 to cover the proposed increases in the scope of work to be undertaken.

Of special interest to our senior citizen residents has been the commencement of a monthly newsletter used to convey housing related information. It will be a useful communication tool and has been well received.

The Authority continues to advocate for and assumes an active role in planning for future housing to meet the needs of the Town. The Authority would like to thank the Town for its support and cooperation which has resulted in a mutually rewarding and successful relationship.

REPORT OF THE CONSERVATION COMMISSION

To the Citizens of the Town of Easton:

In the year 1987 the Commission held twenty-three (23) filings under the Wetlands Protection Bylaw, Article 29, Town of Easton Bylaws, and M.G.L. Ch. 131, s. 40. Also held were three (3) Determination of Applicability hearings. Filing fees generated by these requests amounted to approximately \$7,600.00. With the sensitivity of wetlands being addressed and in an effort to work within the wetlands act, numerous informal meetings were scheduled by the applicants to discuss proposed projects.

The Commission also updated the 'Open Space Plan' and 'Five Year Action Plan' with special attention given to the incorporation of the Massachusetts Bay Circuit Greenbelt, the new 'Furnace Village Historic District' and the updating of land inventory.

We would like to acknowledge the generous gift of 53 acres of land from Gary Werden, a Sharon builder, at the development site in Easton known as "Walden Woods." Said acreage abuts the Wheaton Farm conservation area. Also three small parcels of land totaling 6.6 acres and abutting the Hockomock Swamp (off Howard Street) were purchased from Loring F. Hayward, Robert R. Hayward, Richard B. Hayward and Barbara H. White.

The Commission would like to give special thanks to the members of the DPW for the support they have given us with inspections, review of plans, and miscellaneous other items.

All of the Commission members would like to thank the Town boards and officials who have assisted us over the past year and to thank our fellow citizens for their continuous and vigilance in helping protect our valuable wetlands.

REPORT OF THE VETERANS' SERVICES DEPARTMENT

During 1987, 73 veterans or their dependents received assistance through either the Veterans' Benefits or the Veterans' Services Programs.

Through the Veterans' Benefits Program, 18 veterans or their widows and children received financial assistance with household expenses and/or medical bills. This program was open to low income Easton veterans or their dependents who met the income and asset guidelines that were established by the Commissioner of Veterans' Services. The monthly benefits were paid from local appropriation with the State of Massachusetts reimbursing the Town for 75% of the veterans' benefits issued.

During this past year, 64 individuals received assistance through the Veterans' Services Program. This program is open to all Easton veterans or their dependents regardless of income. As Veterans' Agent, I provided direct service or advocated on behalf of the veteran with various agencies to obtain assistance. If the veteran was unable to come to the Town Office because of poor health, I made a home visit. Some veterans filed applications or submitted information to the Veterans' Administration regarding pensions, compensation claims, burial benefits, education benefits, or home loans. Others applied for fuel assistance or received help in filing for Social Security, SSI Disability or Medicaid. Some sought help with nursing home placement or obtaining property tax exemption.

The Veterans' Services Department was open each week day from 8:30 a.m. to 12:00 noon and from 1:00 p.m. to 4:30 p.m.

I wish to thank the Board of Selectmen for their continues support of this Veterans' Services Department.

REPORT OF THE COUNCIL ON AGING

During 1987 the Council on Aging provided transportation, nutrition, recreation, outreach and referral services to our elderly residents.

We transported 160 elders to medical appointments, grocery stores, shopping malls, the senior center and hairdresser appointments. The shuttle van and our volunteer drivers, along with Dial-A-Bat for our handicapped seniors, made 9,988 trips during the year. The transportation program was funded through the municipal budget with additional support coming from participant donations and mileage reimbursement for our volunteer drivers supplied by the Area Agency on Aging.

60-70 elders took part in the nutrition program at the Senior Center or received meals-on-wheels each week-day. A total of 16,586 meals were served during the year. Old Colony Elderly Services provided the lunches at the Center and supplied meals-on-wheels to homebound elders. Special diet meals-on-wheels were supplied by Easton-Lincoln Nursing Home.

Instructional and recreational programs were offered in bowling, ceramics, decorative wood painting, exercise, line dancing, painting and quilting. In addition, two new programs, the Arthritis Self-Help Course and the Arthritis Aquatic Program at the Easton Fitness Center, were initiated and helped 66 elders with arthritis. Council on Aging day trips and overnight tours remained popular.

Our outreach worker made home visits and contacted 170 elders who had not received C.O.A. services in the past year. She arranged a variety of home care services for our elders by working with local social service agencies and volunteer groups.

Our monthly newsletter was mailed or delivered to each elderly household in Easton with funds from the Executive Office of Elder Affairs. Volunteers and staff members took fuel assistance applications, issued senior citizen identification cards, completed Bay State Gas discount cards and distributed government surplus food to low-income residents.

We would like to thank the many volunteers who make our programs possible and the Easton Housing Authority for the use of their community hall for our Senior Center. We extend our appreciation to the Board of Selectmen, the Finance Committee and the residents of Easton for their continued support of our elderly services and programs.

REPORT OF THE RECREATION COMMISSION

To the Residents of Easton:

The 1986—1987 recreation year, once again, offered to the community an increase in varied programs that was not limited to athletics. Every effort is being devoted to provide opportunities for all interested age levels to participate in some seasonal activity. Considerations of offered programs include enrollment, the equipment and facilities, and the professional personnel available for supervision and instruction.

The Recreation Commission encourages from the citizens of Easton their input how they may broaden their activities to meet the interests of those enrolled.

Special thanks are extended to the Easton Arts Council for their grant in funding the Concerts in the Parks at Frothingham Park; to Robert J. Wooster, Frothingham Park Supervisor, for his cooperation to prepare the park for our playground and Band Concert programs; to Easton Tennis Club for hosting our annual community tennis tournament; Special Needs parents in assisting the Director of Recreation for their expertise to offer a varied program; and Tedeschi Food Shop, Inc., for contributing money to offer the elementary age level appropriate concerts, puppet shows, exhibits, etc.

REPORT OF THE CEMETERY COMMISSION

The Cemetery Commission thanks Dan Amorin and his workers for mowing all the town controlled cemeteries.

The following cemeteries are privately owned and controlled by a Board of Directors: Immaculate Conception, Village, Seth Pratt, South Easton, Pine Grove and Furnace Village.

We have been able to clean headstones in twenty-two cemeteries. The following eight cemeteries will be cleaned in the Spring of 1988: Cynthia Drake, Elijah Howard, Isaac Lothrop, Washington Street, Central, Nehemiah Howard, John Lothrop, Washington Street, Central, Nehemiah Howard, John Selee and Silas Phillips.

Our next project will be to repair broken head stones in all town owned cemeteries.

REPORT OF THE EASTON HISTORICAL COMMISSION

The Easton Historical Commission continues to encourage the community's sense of awareness of the uniqueness of the historical resources in Easton. Many copies of the Historical Map of Easton, printed in conjunction with the Bristol County Development Council, have been distributed to increase this awareness. The commitment of the residents of the community to preserve our historical resources is commendable.

Two historical events were commemorated during 1987. The first was the beginning of the Bicentennial of the Constitution celebration with a special Bicentennial play conducted at Stonehill College in May; this production was directed by an Easton native, June Brenner Judson. The festivities continued with special rededication activities in September. These programs are being planned by a special Bicentennial Committee with the Historical Commission's having representation on the committee and assisting in underwriting some of the necessary costs.

The second event was in conjunction with the 1975—76 celebrations of Easton's 250th anniversary of incorporation as a town and the Bicentennial of the United States; a local civic organization had conducted a Town of Easton flag contest. To honor the winner of this contest, Attorney James Zarrella, a member of the Oliver Ames High School Class of 1975, a special dedication of a plaque at the Town Offices occurred October 24th with a collation following at the Easton Historical Society's headquarters.

The Historical Commission expresses its appreciation to all citizens and local agencies and especially wishes to commend the North Easton Merchants Association for its excellent first annual tree-lighting ceremony. The Commission meets the third Tuesday of each month and the public is welcome.

REPORT OF THE VETERANS MEMORIAL SCHOLARSHIP COMMITTEE

The Veterans Memorial Committee awarded its scholarship to Ann Lisa Jacobson, a member of the Class of 1987 of Oliver Ames High School. This scholarship is for one thousand dollars per year for four years. Miss Jacobson will attend Yale University.

The Committee also presented awards to six students for books, tools, or uniforms when they are pursuing a Vocational Course or Nursing Career. The awards of three hundred dollars each were to: Ingrid Pearse, Donna Nelson, Torrey Botelho, Kelli Anne Spadea, Marianne Moriarty, and Amy Keegan.

The Veterans Committee consists of the following permanent members: Chairman Clyde A. Craig, John F. Hurley, John D. Melin, Chairperson of the Board of Selectmen, Chairperson of the Easton School Committee, Commander of the American Legion Post 7, and Commander of the Veterans of Foreign Wars Post 2547.

REPORT OF THE CONSTITUTION BICENTENNIAL COMMITTEE

The Easton Bicentennial of the Constitution Committee was established early in 1987 by the Selectmen to conduct appropriate programs to commemorate the significance of this special historical occasion. On May 3rd at Stonehill College "The Other Boston Tea Party" was presented; this Bicentennial play was produced and directed by June Brenner Judson, a native of Easton. The successful program was funded by the Easton Historical Commission, Easton Historical Society, and Stonehill College. The collation was funded by a private citizen.

The second set of programs occurred September 16th and 17th. A town commemoration program occurred the evening of the 16th with the keynote speakers being Easton's Olympic hero Jim Craig and Massachusetts Senate President William Bulger. The following morning lawyers spoke to many of the school children of Easton. This activity was developed in conjunction with the Massachusetts Bar Association.

Easton has been officially recognized as a Bicentennial Community by the National Commission on the Bicentennial of the United States Constitution. Two Oliver Ames High School students, Duncan Hollis and Peter Hyatt, were prize winners in a national Bicentennial writing contest. Also, the contribution by the Veterans of Foreign Wars Pvt. George F. Schindler Post No. 2547 of a special Bicentennial pencil for each student in the Easton School System is gratefully acknowledged.

REPORT OF THE LIBRARIAN AMES FREE LIBRARY OF EASTON, INC.

The report of the Ames Free Library of Easton, Inc., for the year ending December 31, 1987 is hereby submitted.

During the past year, 1,071 new books were added to the library, bringing the total number of volumes to 47,838. Of the 1987 additions, 735 were adult and 336 juvenile.

The total number of books circulated came to 64,485, an increase of 820 over the previous year. Of this total, 29,400 were in the adult section and 35,085 in the children's room. The number of borrowers' cards registered during the year came to 1,511, with 1,072 of them adult and 439 juvenile. Total number of borrowers' cards held by Easton residents amounted to 6,434.

The circulation of videocassettes, which was started in May 1986 on a trial basis, became a well-established service by the end of 1987. The library now owns 91 cassettes that had a circulation of 1,255 during the past year.

Activities for young people included spring and fall story hours for pre-schoolers and a summer reading club for children of all age groups. There were 136 participants in the summer program, with 87 reading and reporting on 10 or more books.

Service to Golden Agers, a joint project by the library and the Easton Council on Aging, was started in October 1987 by Priscilla Perron of the latter organization. Librarians select books for elderly readers who cannot come to the library and Mrs. Perron delivers them.

As in other years, sightseers came from all over this country and abroad to view the library building, an example of the work of the famous architect, H. H. Richardson. On behalf of the Massachusetts Historical Commission, the library was included in the Historic American Buildings Survey (HABS), which documents buildings "of outstanding significance and interest." In December 1987 the survey photographer took interior and exterior photographs, the original negatives of which will be preserved in the Library of Congress.

REPORT OF THE EASTON LIBRARY BUILDING STUDY COMMITTEE

During 1987 the Library Study Committee was reorganized as the Library Building Study Committee and continued to investigate how best to bring up-to-date services to Easton.

The Committee appreciates the enthusiasm of the townspeople as evidenced by the appropriation of \$75,000 at Annual Town Meeting. These funds will provide professional consulting services and preliminary design plans for the library project.

Library consultants Andrew Katzen and Elaine DeMarco were chosen to provide professional guidance on site selection, writing a library program statement, and other matters related to the founding and organization of a new library department. The selection process for an architect resulted in the choice of A. Anthony Tappe and Associates. When a site is selected, they will prepare preliminary design plans based on the program statement prepared by the Committee and library consultants.

The process of selecting a site has been complicated and lengthy. The site which was being considered on Depot Street has been determined too wet to be appropriate for the project. At this writing the Committee is in contact with Stonehill College and the Easton School Department in an effort to identify any appropriate location which may be available in town.

Additional plans for the upcoming year include the organization of a Board of Library Trustees in order that grant-writing and fund raising can begin. Communication is maintained with Representative Vernon's office and the Mass. Board of Library Commissioners in order to keep abreast of funding possibilities, legislation, and other developments affecting public libraries at the State level.

The Committee was saddened by the loss of member Michael Loughlin whose friendly presence and valuable input have been greatly missed.

With many thanks to the Board of Selectmen and other Town committees for their continued support and encouragement, the Library Building Study Committee looks forward to another challenging year.

REPORT OF THE OLD COLONY PLANNING COUNCIL

To the Honorable Board of Selectmen
and Citizens of the Town of Easton:

As your representatives to the Old Colony Planning Council, we are pleased to present this report of the Council's activities for 1987.

The Council, through its non-profit organizational entity OCPC—Regional Operations and Management, Inc., has acquired the historic Brockton Edison Electric Power Station originally constructed in 1883 to be renovated and restored as offices for the Council. The building is strategically located across from the Brockton City Hall on School and Montello Streets in Brockton and is an important element in the program to revitalize the City Center. The Council was awarded a matching grant of fifty thousand dollars to assist in the restoration of the building by the Massachusetts Historical Commission and should occupy the space some time after May 1, 1988.

The planning and management activities of the Council in 1987 continued to be focused in three major areas: Community and Economic Development Planning, Transportation and Transit Planning, and Elder Services Planning as the Area Agency on Aging. Increased funding was made available to the Council in 1987 through a Regional Planning Agency grant fund program administered by the Executive Office of Communities and Development. These grants are used by the Council to address problems and issues of regional concern.

Development activity continued to be strong in the region during the year while housing prices reached all time high levels and then tended to stabilize. Unemployment was at low levels during the year responding to the generally favorable economic conditions. However, affordable housing is rapidly becoming a major concern in many communities where a growing proportion of the population is unable to afford to purchase their own home. The Council, in cooperation with its member communities, must begin to examine the practicality of revising local land use controls to facilitate the development of additional housing opportunities in the future.

In 1987 John J. DeMarco of Avon was elected as President of OCPC, Robert W. Smith of East Bridgewater was elected as Council Secretary, and James A. Kassos of Brockton was elected as Council Treasurer.

The Council gratefully acknowledges the generous support and cooperation of its member communities, the participation and involvement of members of the Joint Transportation Committee chaired by Mr. John Yaney, the Overall Economic Development Committee chaired by Mr. Joseph Joseph, and the Area Agency on Aging Advisory Committee chaired by Mr. John Mather. The Council also recognizes the work of local boards and commissions and the many government agencies, public and private institutions and individuals who have assisted the Council.

Richard H. Chase, Delegate

REPORT OF THE AMES TRUST FUNDS

The following statement is supplied the Town Clerk by the office of the Trustees of the Ames Trust Funds.

Following is a summary of the Ames Trust Funds held for the benefit of the Town of Easton as of December 31, 1987, together with an estimate of the 1988 income. The estimate for 1988 income is based on the amounts which the various companies are now paying. This estimate does not allow for any deductions which may have to be made before the net income is paid over to the Town of Easton, nor does it take into consideration any reductions in dividends which might be made by the various companies.

ANNUAL TOWN MEETING WARRANT

TOWN OF EASTON

REPORT OF THE ANNE'S TRUST FUNDS

The following statement is signed by the Town Clerk by the office of the Treasurer of the Anne's Trust Funds.

Following is a summary of the Anne's Trust Fund for the benefit of the Town of Easton as of December 31, 1999. The summary is prepared by the Town Clerk in accordance with an estimate of the 1999 income. The estimate for 1999 income is based on the amounts which the various contributors are now paying. This estimate does not allow for any adjustments which may have to be made before the next income is paid over to the Trust of Easton. It does not include any reductions in the amounts which may be paid over to the Trust of Easton.

ARTICLE 20. To see if the Town will vote to accept the non-binding reports of the Planning and Zoning Board concerning its recommendations in regard to the proposed amendments of the Zoning By-law to be voted on under Articles 21, 22, 23, 24, 25, 26, 27, 28, 29, 30 and 31, or to take any other action relative thereto. (Vote hereunder is acceptance of written report, but not of recommendations contained therein.)

Submitted by Planning & Zoning Board

ARTICLE 21. To see if the Town will vote to:

1. Accept the proposed amendment of the "Town of Easton, Massachusetts Zoning Map" dated April 9, 1984 (original date March 3, 1973) in the following manner:

The Aquifer Protection Districts are established as overlay districts as shown on the "Town of Easton, Massachusetts Zoning Map," a copy of which is on file in the Town Clerk's Office.

2. Repeal Section V, Sub-section 5-4. of the Zoning Bylaw of the Town of Easton in its entirety and replace it with a new Sub-section 5-4. to read as follows:

5-4 AQUIFER PROTECTION DISTRICTS

A. Findings

The Town of Easton finds the following conditions to occur:

1. The ground water underlying the Town is the sole source of its existing and future drinking water supply.
2. The groundwater aquifers are integrally connected with and flow into the surface waters, lakes, ponds and streams which constitute significant recreational and economic resources used for water related recreation and fishing.
3. Accident spills and discharges of petroleum products and other toxic or hazardous materials and sewage discharge have repeatedly threatened the quality of such ground water supplies and related water resources throughout Massachusetts, posing potential public health and safety hazards and threatening economic losses to affected communities.

B. Aquifer Protection Districts

Aquifer Protection Districts shall be as delineated on the Zoning Map of the Town of Easton and shall be superimposed over any other district established by this Bylaw. They are based upon a 5-foot contour interval water table map, surficial geologic mapping and ground water modeling.

C. Prohibited Uses

Within an Aquifer Protection District, the following uses are specifically prohibited:

1. Sales or storage of fuels
2. Junk yards
3. Municipal sewage treatment facilities with on-site disposal of primary or secondary treated effluent

4. Packaged sewage treatment plants
5. Car washes
6. Road salt stockpiles not stored in approved structures
7. Dumping of snow from outside the district
8. Dry cleaning establishments
9. Motor vehicle and boat service and repair facilities
10. Metal plating establishments
11. Veterinary clinic/animal hospital
12. Planned Business Development
13. Planned Industrial Development
14. Chemical and bacteriological laboratories
15. Any other use which involves as a principal activity the manufacture, storage, use, transportation or disposal of toxic or hazardous materials, except as allowed by special permit in Section 5—4(F).
16. Sanitary landfills *
17. Solid waste facilities **

* Specifically excluded from this provision is the continued use and vertical expansion of the existing municipal sanitary landfill off Prospect Street in accordance with approval by the Massachusetts Department of Environmental Quality Engineering (DEQE).

** With the specific exception that the existing landfill located off Prospect Street may be converted to a composting facility and/or a solid waste transfer station

D. Density Regulations

Residential dwellings, except those within planned unit developments, shall be permitted only at a density not greater than that allowed in Section 6—3. Residential dwellings within planned unit developments shall be permitted only at a density not greater than one (1) dwelling unit per acre, exclusive of wetlands and flood plains as defined in MGL, Chapter 131, Section 40, as amended.

E. Special Permit Uses

Within the Aquifer Protection District the following uses shall be allowed only upon receipt of a special permit:

1. Any use involving toxic or hazardous materials in quantities greater than those associated with normal household use.
2. Golf courses, either private or public.

F. Special Permits

1. **Special Permit Granting Authority.** The special permit granting authority (SPGA) under this Bylaw shall be the Zoning Board of Appeals. Such special permits shall be granted if the SPGA determines, in conjunction with the other Town agencies indicated in Section 5—4(F)(2) that the

intent of this Bylaw, as well as its criteria, are met. In making such a determination, the SPGA shall give consideration to the simplicity, reliability and feasibility of the control measures proposed and the degree and threat to water quality which would result if the control measures fail.

2. Review by other Town agencies. Upon receipt of the special permit application, the SPGA shall transmit one (1) copy to the following: Department of Public Works, Water Division, Board of Health, Planning & Zoning Board, Zoning Board of Appeals, Conservation Commission and the Building Inspector for their written recommendations. Failure to respond in writing within thirty (30) days shall indicate approval or no desire to comment by said agency. The necessary number of copies of the application shall be furnished by the applicant.
3. Special Permit Criteria. Special permits under Section 5-4(F)(4)a shall be granted only if the SPGA determines, in conjunction with the Department of Public Works, Water Division, that ground water quality resulting from on-site wastewater disposal and other on-site operations remains within current EPA and DEQE standards for drinking water at the down-gradient property boundary.
4. Submittals. In applying for a special permit required by this section, the applicant shall provide the following information:
 - (a) A complete list of all chemicals, pesticides, fuels and other potentially toxic or hazardous materials to be manufactured, used or stored on the premises in quantities greater than those associated with normal household use, accompanied by a description of measures proposed to protect all storage containers/facilities from vandalism, corrosion and leakage and to provide for the control of spills.
 - (b) A description of potentially toxic or hazardous wastes to be generated, indicating storage and disposal methods.
 - (c) Evidence of approval by the Massachusetts Department of Environmental Quality Engineering (DEQE) of any industrial waste treatment or disposal system or any wastewater treatment system with a capacity of 15,000 gallons per day or more.
 - (d) Projections of downgradient concentrations of nitrogen and other relevant chemicals at property boundaries and other locations deemed pertinent by the SPGA. Projections shall be based upon appropriate ground water models and the following information/standards:
 - i. Nitrogen loading calculations
 - Wastewater per person: 5 lbs. of nitrogen per year
 - Persons per dwelling: 3
 - Lawn fertilizers: 2 lbs. of nitrogen per 1,000 square feet of lawn area per year
 - Road runoff: 0.19 lbs. of nitrogen per curb mile per day

- Background nitrogen concentration: actual field measurements
- ii. Groundwater flow and impacts to drinking water supply wells
 - Identify probably impacted water supply well(s) by constructing flow lines on the Easton Water Table Map (IEP, 1986) downgradient of the proposed site.
 - Use 15 inches per year of sand and gravel and 7 inches per year for till for areal recharge rates
 - Determine the value for hydraulic conductivity from the closest downgradient public water supply well in the Easton Aquifer Protection Plan (IEP, 1986)
 - Determine the saturated thickness of the site as shown on the Saturated Thickness Map (IEP, 1986) supplemented with on-site borings.
- 5. When an application is made for a building permit which involved the use of land in the Aquifer Protection District, the Building Inspector shall require that the applicant for such a permit provide a plan of the lot on which the proposed development is intended showing 2-foot contour intervals. The datum shall be the National Geodetic Vertical Datum and the bench marks shall be identified on the plan. The plan shall be stamped by a Registered Engineer or Registered Land Surveyor. The Building Inspector shall transmit one (1) copy of the plan to the following Town agencies for written comments: Department of Public Works, Water Division, Board of Health, Planning and Zoning Board and Conservation Commission.

G. Design and Operations Guidelines

The following design and operation guidelines shall be observed within the Aquifer Protection Districts.

1. Safeguards. Provisions shall be made to protect against toxic or hazardous material discharge or loss resulting from corrosion, accidental damage, pillage or vandalism through measures such as:
 - prohibition of underground fuel storage tanks
 - spill control provisions in the vicinity of chemical or fuel delivery points
 - secured storage areas for toxic or hazardous materials
 - indoor storage provisions for corrodible or dissolvable materials
 - a closed vapor recovery system for each structure which allows the evaporation of toxic or hazardous materials into its interior to prevent discharge of contaminated condensate into the ground water.
2. Location. Where the premises are partially outside the Aquifer Protection District, potential pollution sources such as on-site waste disposal systems shall be located outside the District to the extent feasible.
3. Disposal. For any toxic or hazardous wastes to be produced in quantities greater than those associated with normal household use, the applicant

must demonstrate the availability and feasibility of disposal methods which are in conformance with MGL, Chapter 21C, as amended.

4. Drainage. All runoff from impervious surfaces shall be recharged on the site, diverted towards areas covered with vegetation for surface infiltration to the extent possible. Dry wells shall be used only where other methods are not feasible and shall be preceded by oil, grease and sedimentation traps to facilitate removal of contaminants.

H. Violations

Written notice of any violations of this Bylaw shall be provided by the Building Inspector to the owner of the premises with said notice specifying the nature of the violation(s) and a schedule of compliance, including cleanup of any spilled materials. This compliance schedule must be reasonable in relation to the public health hazard involved and the difficulty of compliance. In no event shall more than thirty (30) days be allowed for either compliance or finalization of a plan for longer-term compliance.

A toxic or hazardous material shall be defined as any substance or mixture of such physical, chemical or infectious characteristics as to pose a significant, actual or potential hazard to water supplies or other hazard to human health, if such substance or mixture were discharged to land or waters of the Town. Toxic or hazardous materials include, without limitation, the following:

- organic chemicals
- petroleum products
- heavy metals
- radioactive or infectious wastes
- acids and alkalies
- products such as pesticides, herbicides, solvents and thinners

Wastes generated by the following activities, without limitation, are presumed to be toxic or hazardous unless and except to the extent that anyone engaging in such activity can demonstrate to the satisfaction of the Board of Health and the Department of Public Works, Water Division.

- airplane, boat and motor vehicle service and repair
- chemical and bacteriological laboratory operation
- cabinet making
- dry cleaning
- electronic circuit assembly
- metal plating, finishing and polishing
- motor and machinery service and assembly
- painting, wood preserving and furniture stripping
- pesticide and herbicide application
- photographic processing
- printing

or to take any other action relative thereto.

Submitted by Planning & Zoning Board

ARTICLE 22. To see if the Town will vote to amend the Zoning By Law of the Town in the following manner:

1. In SECTION II DEFINITIONS, under the definition of HOME OCCUPATION, on the next to last line after the words "no more than" delete the words "one nonresident employee" and insert in place thereof the following new words: "three employees, one of whom can be a nonresident,".
2. In SECTION V USE REGULATIONS, Sub-section 5-3, TABLE OF USE REGULATIONS, PRINCIPAL USES, Paragraph I. Accessory Uses. Sub-paragraph 3), after the words, "not more than three (3)" delete the word "persons" and insert in place thereof the following new words: "employees, one of whom can be a nonresident."

ARTICLE 57. To see if the Town will vote to amend the by-laws of the town to add the following new Article after Article XXIII, entitled "Town of Easton Library By-Law":

ARTICLE XXIV TOWN OF EASTON LIBRARY BY-LAWS

SECTION 1. Name and authorization

This organization shall be called "The Board of Trustees of the Easton Public Library," existing by virtue of the provisions of Ch. 78 Section 10-13, 21 of the General Laws of Massachusetts, and exercising the powers and authority and assuming the responsibilities delegated to it under the said statute.

SECTION 2. Trustees

A. Number and qualifications

The governing body of the library is composed of six members appointed by the Town Administrator.

B. Term of Office

The term of office of members of the Board of Trustees shall be for three years. When such a board is first chosen, one third thereof shall be appointed for one year, one third for two years, and one third for three years. Thereafter one third shall be appointed annually for a term of three years.

C. Resignations

Any member of the Board of Trustees may resign by written notice filed with the Board of Selectmen of the Town of Easton, and with the Chairman or Secretary of the Board.

D. Vacancies

In the event of a vacancy or vacancies on the Board of Trustees prior to the end of the individual(s) term(s) of office, the Trustees shall recommend to the Board of Selectmen the names of acceptable replacements. The Trustees may suggest a single name or multiple names as they deem fit. Such appointments shall be valid until the next town election when any remaining portion of a term shall be filled through election.

SECTION 3. Officers

A. Offices

The officers of the Easton Library shall be a Chairman, a Vice-Chairman and a Secretary. The officers shall not be elected to more than two successive terms.

The Chairman, Vice-Chairman and secretary shall be elected by the Board of Easton Public Library at the Annual Meeting of the Board. They shall hold office until the next Annual Meeting of the Board and until their respective successors are elected.

B. Duties of the Chairman

To serve as presiding member of all meetings of the Easton Public Library Board.

To call special meetings of the Easton Public Library Board.

To serve ex-officio as a member of all committees of the Easton Public Library Board and to preside at all meetings of such committees which he attends.

C. Duties of the Vice-Chairman

To perform the duties of the Chairman of the Easton Public Library Board at the request of the Chair or in the Chair's absence.

D. Duties of the Secretary

To keep a true and accurate record of all meetings of the Board, to issue and post due notice of all regular and special meetings and perform such other duties as are generally associated with that office.

SECTION 4. Library Director and Staff

The Board shall appoint a qualified library director who shall be the executive and administrative officer of the library on behalf of the Board, under its review and direction. The director shall recommend to the Board the appointment and specify the duties of other employees and shall be held responsible for the proper direction and supervision of the staff, for the care and maintenance of library property, for an adequate and proper selection of books and other library materials in keeping with the stated policy of the Board, for the efficiency of library service and to the public and for its financial operation within the limitations of the budgeted appropriation. In case of part-time or temporary employees, the director shall have interim authority to appoint without approval of the Board provided that any such appointment shall be reported to the Board at its next regular meeting. The library director shall attend all duly constituted Board meetings.

SECTION 5. Committees

A. Standing Committees shall be established as follows:

— Art Committee. The duties of the Art Committee shall be to advise the Trustees on matters affecting art objects held by the Library. Under authorization of the Trustees, the Committee may give needed care to those objects.

— Building and Grounds Committee. The duties of the Building and Grounds Committee shall be to advise the Trustees on matters affecting the physical plant of the Library.

— Program Committee. The duties of the Program Committee shall be to advise the Trustees on programs and special events under consideration for implementation by the Library.

- B. The Chairman shall appoint committees of one or more members each for such specific purposes as the business of the Board may require from time to time. The committee shall be considered to be discharged upon completion of the purpose for which it was appointed and after the final report is made to the Board.
- C. All committees shall make a progress report to the Library Board at each of its meetings.
- D. No committee will have other than advisory powers unless, by suitable action of the Board it is granted specific power to act.

SECTION 6. Meetings

- A. The Library Board shall meet on the 1st Thursday of each month at 7 P.M. o'clock at Easton Library or at the place designated at the preceding meeting. The first meeting after town elections shall be the annual meeting.
- B. Open Meeting Law. All meetings of the Trustees shall be subject to the Commonwealth's Open Meeting Law, as elaborated in Mass. General Laws Ch. 39 s 23A—23C. In particular, all meetings are open to the public unless held in executive session under terms of the law, a notice of all meetings except in case of emergency, will be filed with the town clerk at least 48 hours before hand and a copy of the notice will be posted in the clerk's office. Further, all records or minutes of meetings will be available for public inspection.
- C. Special meetings of the Board of Trustees may be called by the chairman, or upon written request of three (3) members, for the transaction of business as stated in the meeting request. Notice stating the time and place of any special meeting and the purpose for which called shall be posted as required by the Commonwealth's Open Meeting Law and given to each member of the Board of Trustees or Executive Committee at least three (3) days in advance of the meeting.
- D. A quorum for transaction of business shall consist of a simple majority.
- E. Order of Business at regular meetings shall be:

SECTION 7. Duties of the Board of Trustees

- A. Engage in ongoing planning process which assesses the needs of the library and the role of the library in the community; and ensure that the library develops to meet those needs.
- B. Select, appoint and regularly evaluate a competent library director.¹
- C. Prepare a written employment contract for the Librarian, detailing the basic conditions of employment as provided by Mass. General Laws, Ch. 78 s 34.
- D. The Trustees shall establish a written policy for the selection of library materials and the use of the library materials and facilities which is in accord with the current standards of the American Library Association, as provided for by Mass. General Laws, Ch. 78 s 33.
- E. Determine the policy of the library and maintain a written record thereof.
- F. Advise in the preparation of the budget, approve it, and secure adequate funds to finance the approved budget.
- G. Through the library director, supervise and maintain buildings and grounds, as well as regularly review various physical and building needs to see that they meet the requirements of the total library program.
- H. Attend meetings with municipal finance and administrative boards.
- I. Speak and act as an advocate for libraries in the community and maintain vital public relations.
- J. Study and support legislation which will bring about the greatest good to the greatest number of libraries.

SECTION 8. Collective Authority of the Board

All decisions of the Board are made by the Board as a collective body. No individual members may make decisions or act for the Board unless specifically authorized to do so by a vote of the membership of the Board.

SECTION 9. Parliamentary Rules

Except as provided for by these by-laws, the current edition of Robert's Rules of Order shall govern.

SECTION 10. Amendments

These bylaws may be amended at any regular meeting of the Board with a quorum present, by a majority vote of the members present, provided the amendment was stated at the preceding meeting (or, "was sent to the members at least 30 days prior to the meeting").

or to take any other action relative thereto.

BOARD OF SELECTMEN

OFFICIAL PROCEDURES TO BE USED AT TOWN MEETING

Approved – Town Meeting – May 1978

1. Main Motions:

Debatable

When a motion has been made, seconded and stated by the Chair, the assembly is not at liberty to consider any other main motion until this motion has been disposed of.

2. Motions to Amend:

Debatable

Majority Vote Required

This motion is to change, add, or omit words in the original main motions.

3. Motion to Amend the Amendment

Debatable

Majority Vote Required

This is a motion to change, add, or omit words in the first amendment.

Method of Vote: The first vote is on changing words of second amendment. If the first vote adopts the change, the second vote is on the first amendment as changed or amended. The third vote is on adopting the main motion as changed or amended.

4. Motion to Commit or Refer:

Debatable, Amendable

Majority Vote Required

When a motion becomes involved through amendments or when it is wise to investigate a question more carefully, it may be moved to commit or refer the motion to a committee for further consideration.

5. Motion to Close Debate Not Debatable

2/3 Vote Required

When debate does not seem to be shedding additional light on a question, you may move to end it by calling the question: "Mr. Moderator, I call the question." You must be recognized by the Chair before making this motion. As soon as this Motion is made, debate ceases and a vote on closing debate is taken. If the motion is carried, a vote is immediately taken on the question under consideration.

6. Motion to Reconsider:

Debatable

Majority Vote Required

This motion must be made the same day as the original motion was carried or defeated, "A vote can be reconsidered only once."

7. Motion to Adjourn:

Debatable

Majority

This motion is always in order except (a) when a speaker has the floor, (b) when a vote is being taken, (c) after it has just been voted down (d) when the

assembly is in the middle of some business which cannot be abruptly stopped. A definite time and place must be set.

MISCELLANEOUS MOTIONS

These motions (or questions) are not necessarily related to the Main Motion and do not fall within the order of precedence. They may be made as appropriate or necessary.

1. Question of Privilege:

A motion unrelated to the business taking place, e.g. "Question of privilege, please! It is too noisy. I request that the Chair ask that all talking be stopped."

2. Point of Information:

Motion used to ask a question or obtain clarification of facts pertaining to the motion at hand. "Point of information, please! What would be the cost to repair this piece of machinery rather than replace it?" There is no vote or debate. The Chair provides the information sought.

3. Point of Order:

This motion is always in order but can be used only to present an objection to some method of parliamentary procedure. "Mr. Moderator, I rise to a point of order!" Then the objection is stated. There is no vote or debate and the Chair immediately rules on the point of order.

4. Point of No Quorum:

This motion requires no second and is not debatable. No other motion may be applied to it. It may not be used to interrupt a speaker. When the point is properly raised, the Moderator must then ascertain whether or not a quorum exists.
